Proposal Forming

1 Present and consent to Driver

"Is it clear enough?"
"Is it relevant for us?"

2 Questions about the Driver

"Any other info you need to know about the Driver?"
...answer Q's as you go...

Do we know enough about the Driver for now?

3 Record considerations as Q's

"What questions come up for me when I start thinking about possible solutions?"

Info gathering Q's (understanding constraints)

Generative Q's (exploring possibilities)

איך...?

"Do we have a budget?"
"How many people are affected by this?"

"What's the simplest thing we could do?"
"How can we gather feedback?"

* Avoid solutions disguised as questions!

4 Answer information gathering Q's ...to increase knowledge of constraints

Where possible...

5 Prioritize generative questions

6 Collect ideas

...that offer a complete solution to the driver or address specific, important considerations.

defer dialogue and sharing opinions

7 Choose tuners

No objections!

Who should be there?
Who wants to be there?
Other significant contributors?
